

# Andin Mikushnica

## Web Developer | React & JavaScript Front-End

andi.mikush@gmail.com | 07389156559 | London, GB | portfolio-project-eight-theta.vercel.app/  
andi-mikushnica andin-mik

### Summary

Web developer with hands-on experience building responsive, data-driven applications using React, JavaScript, and modern front-end technologies. Skilled in integrating RESTful APIs, managing asynchronous state, and collaborating in code reviews with Git. Strong problem-solving ability and a commitment to continuous learning, supported by practical experience in UI design, debugging, and technical support. Eager to contribute to innovative projects and grow within a collaborative development team.

### Skills

- Web Development:** JavaScript, TypeScript, React, HTML5, CSS3
- UI and Front-End Technologies:** Tailwind CSS, Framer Motion, Responsive design, Accessibility
- Backend and Data Handling:** Node.js, REST APIs, MongoDB, PostgreSQL, Express
- Version Control and Collaboration:** Git, Code review, Debugging, Teamwork
- Software Development Practices:** Object-oriented programming, Asynchronous data handling, State management

### Work Experience

#### Waste Creative | London

03/2023 - 09/2023

##### Front-End Developer Intern

- Built and maintained reusable React components for client-facing websites, supporting scalable and maintainable codebases
- Integrated RESTful APIs and managed asynchronous state to deliver dynamic, data-driven web applications
- Developed responsive and accessible user interfaces using Tailwind CSS, ensuring usability across devices
- Improved user experience by implementing UI animations and transitions with Framer Motion
- Collaborated with senior developers in code reviews and debugging, using Git for version control and team coordination

#### SmartSystemsIT | London

07/2024 - Present

##### IT Support Engineer

- Provide technical support for over 300 users across Windows, macOS, and ChromeOS environments, resolving hardware, software, and network issues
- Administer cloud platforms such as Google Workspace and Microsoft 365, supporting users in production environments
- Work closely with team members to troubleshoot and resolve technical problems, ensuring smooth business operations
- Manage device configurations and user accounts to maintain secure and efficient IT operations

### Projects

#### Dragon Ball Wiki

Single-page React application consuming a third-party API.

- Built a responsive web application using React, React Router, and Tailwind CSS, focusing on asynchronous data fetching and robust error handling.
- Implemented dynamic routing and reusable UI components to support scalable content rendering.
- Designed smooth UI animations with Framer Motion and structured the codebase for maintainability.

#### Arsenal Website Recreation (MERN Stack)

Recreated and enhanced a production-scale website using React, Node.js, MongoDB, and Tailwind CSS.

- Developed a full-stack web application with a focus on responsive design, API integration, and UI consistency.
- Applied reusable component patterns and effective state management across the application.
- Emphasized clean UI architecture and accessibility-friendly markup.

### Education

#### City, University of London

01/2020 - 12/2023

##### BSc (2:1) - Computer Science

### Certificates

- Coursera: Front-End Development – Meta (Coursera) 01/2025
- Coursera: JavaScript Programming Essentials – IBM (Coursera) 01/2025

### Languages

English: Fluent
